What is the Lil Weggie?

- The Lil Weggie is an innovative product that can be used in many ways.
- Primary use: Connect to a tarp (without the need of a grommet) and tie down through the loop on the other end of the Lil Weggie.
- The process is very simple and more convenient than any other tarp tie down method.

- Any truck bed

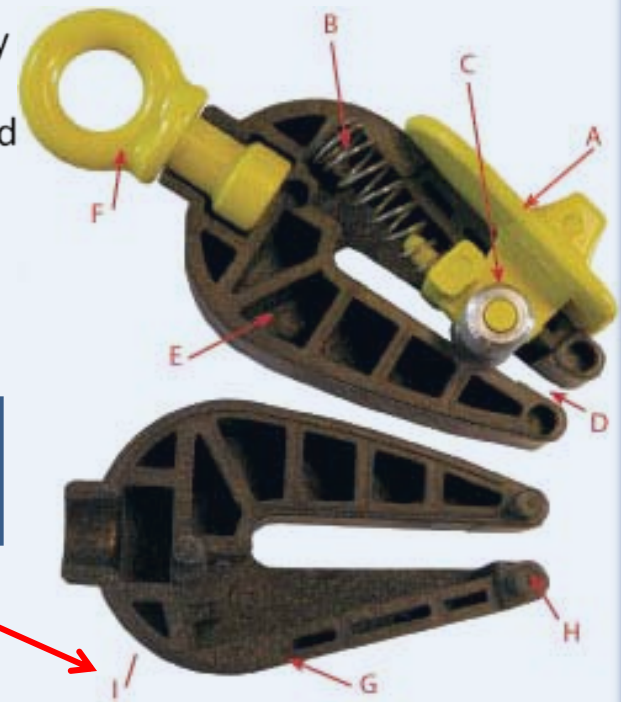

How It Works

Seriously over-built, the lil Weggie will perform well and last a very long time!

- A. The locking system is operated with a thumb pad
- B. Heavy gauge stainless steel, convex tension spring
- C. Dual billet aluminum rollers with a touch of knurling to give them bite, riding on over-sized axles
- D. Ample opening to receive several layers of tarp at once
- E. Honeycombed housing reduces weight and adds strength
- F. Over-sized trapped bell eyelet maximizes versatility

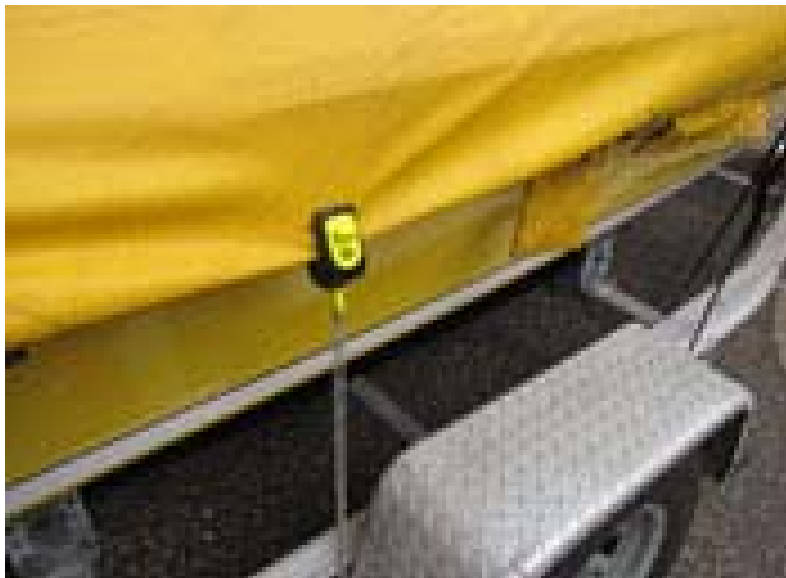

- G. Built from polycarbonate with UV protection
- H. Housing is perfectly aligned on long heavy posts
- I. The product is welded together using sonic welding technology

Example Uses

The days of having to use the preplaced grommets on a tarp is over. The Lil' Weggie gives the tarp complete flexibility.

Time is money to truckers , so they do not have time to install a new tarp or place a new grommet on a torn tarp. With the Lil' Weggie you simply fold the torn portion of the tarp, place on a Lil' Weggie and re attached the strap.

Photo shown is a tarp without grommets being secured over a motorcycle using bungees and Lil' Weggies!
